

**Care and
support
in your own
home**

The care you receive from us will meet your individual needs and support your rights, choices, independence, and quality of life. Our carers are chosen because they want to make a difference. They want to provide care and support which means you can live happily and independent in your own home.

ONE CALL DOES IT ALL

Our Services

Personal Care

Sometimes your day-to-day routine can become unmanageable, we are able to support with all your personal needs, such as washing, dressing, showering and toileting, we can also offer support and assistance with meal preparation and administering your medications.

Domestic And Shopping Support

Your housework and daily chores can become too much for yourself or your family to support, we offer services such as cleaning and shopping to support these pressures to give you and your family peace of mind.

Companionship

We understand that care should go beyond just physical and medical needs, we offer services to ensure you or your loved one is kept company whilst working to improve wellbeing and happiness.

Social Inclusion

Sometimes requiring care can be isolating, Serve Homecare can ensure you are able to attend your social functions, personal appointments, and community events with one of our Care Workers to ensure your needs are met outside of the home.

Live In

Just visiting isn't always sufficient to cover your needs, you can feel at ease with one of our Care Workers living with you to offer around the clock support.

Overnight Support

Care and support requirements are not always throughout the day Serve Homecare understands that you may require support overnight and can offer services to support you throughout the night.

If you have any questions regarding our services or require any further information, please do get in touch where one of our team can assist you further.
